Free Software

and

Alternatives to Free Software

Presentation for the:

PCBUG – The Naples Technology User Group

July 15, 2021
5:00 p.m.

Presented by:

John “Free John” Kennedy

freejohn@protonmail.com

Member of the
East-Central Ohio Technology Users Club
Newark, Ohio

Presented by:

John “Free John” Kennedy

freejohn@protonmail.com

Proud Member of the Speaker’s Bureau
and APCUG Regional Advisor
For Regions 3/6

Brought to you by:

APCUG Speakers Bureau

One of your club's benefits of membership.

Functional Resources

Economically Enticing

FREE

My Needs

Computer software:

- that does what I want
- and price is reasonable

My Problem

- most “packaged” software does way more than what I need
- most “packaged” software costs way more than I can afford

What I've Found

- software that costs $$$$
- software that's FREE
  and
- free software that I like better than other free software

Types of Software

- PS = Paid Software
- FS = Free Software

Types of Software

- CSS = Closed Source Software
  - Code is hidden from view

- OSS = Open Source Software
  - Code is open for viewing

Types of Software

- PCSS = Paid Closed Source Software
  - Proprietary
- POSS = Paid Open Source Software
  - Freeware and maybe Shareware
- FOSS = Free Open Source Software
  - Totally at no cost at all (marked w/**)

FOSS

- **F**ree and **O**pen **S**ource **S**oftware
- Closed vs. Open Source Software; how are they different? **Recipes!**
- Open source developers are willing to share the code so that others can help re-write/improve the software (you can also donate to these people as well).

Bottom Line = $$$$

- Free programs may be missing some features.
- So far I haven't missed them, and you may not either.
- But if something is missing, then you decide if it's worth the total price of the program to have that missing feature.
- Start with the free program, if it doesn't meet your needs, purchase the paid program.

My Areas of Computer Needs

- Operating System
- Tech Trouble/Assisting/Communicating
- Protection (computer management)
- Productivity (file creation)
- Multimedia (audio/video)
- Graphics/Digital Imaging

I'd like to share what I use or would use, and other examples of functional software that’s economically enticing.

Operating Systems

- Heart/Brains of it all
- Graphical desktop
- Lots of applications
- FOSS = LINUX**

Licking County Aging Program
Licking County Computer Society
Computer Teaching Program
Dear ,
We really hope that you enjoyed your first computer class, "Computers For the Total Beginner", with us. Jim Holton said that it was a good class and it seemed that you enjoyed your time with him learning to get to know the computer.
It is now time for the second computer class, "Everyday
planning on continuing your classes with us and learning
meeting in a couple of weeks and we want you to join us
17-19. The class will meet those Mondays, Tuesdays, a
the cost is only $20 for the 12 hours of instruction. Thei
and review.
We're including the registration form for the class and a
class. However, we sometimes take questions from the
questions. After reading the description, we hope that y

Threat Scan
Our most comprehensive scan. It scans all the places malware is known to hide, including Memory, Startup, Registry, and Filesystem Objects. Recommended as your daily scan.
Recommended
Custom Scan
Allows you to scan where and what you want to scan. Modifications include choosing which Objects to scan (Memory, Startup and Registry). Enables you to customize the treatment of Potentially Unwanted Programs (PUPs) and Modifications (PUMs).
Hyper Scan
Quickly checks Memory and Startup Objects for active malware threats. If anything is found, we recommend running a Threat Scan afterward for more comprehensive detection.
Premium Only

8 Reasons to Switch From Windows 10 to Linux

HTML Content

Windows 10 has been out in the wild for a while now. For the most part, people have been really li
the most streamlined version of Microsoft's operating system to date. Still, some people aren't hap
and are looking at alternatives.

Introducing Linux: it's a free and open source platform which many operating systems are built up
to move from Windows to an alternative, here are eight compelling reasons why you should leave
free and open source operating system.

1. Free operating systems for life

Thanks for signing up!
This is Simplenote
Kind of great. It does plain-text but you can also knock your socks off with full Markdown support if you want to format your text.
There is no spell-check in Windows or Linux apps, but web, macOS, Android, and iOS get spell-checked by the system-provided spell-checkers.
Now, go back to reading the actual article if you please ... .

Add-on of the Week: Dropbox for FileLink
Add Dropbox support to Thunderbird's Filelink feature.
Thunderbird's Filelink feature makes it quick and easy to send large attachments by uploading those attachments to various storage services and then inserting a link to the file into the body of your email.
Get Dropfox for FileLink »
Need Support?
Over 75% of Thunderbird support questions are answered on the Knowledge Base.
If you can't find an answer, ask your question at Get Satisfaction.

Another Blue Night - Snowy White & The White Flames
Something On Me

I have darkness in my heart
When the sun goes down
Black dog snapping at my heels
Every night the same old thing
Time is dragging like a broken wing
And I know how loneliness feels

Another blue night coming my way
It's another blue night
All this could be over in a moment
I could be safe from all this pain

My life could be mended
These black nights ending
If I could get my baby back again
Another blue night coming my way
It's another blue night

Another blue night watching over me
It's another blue night
And I can hear my breaking heart

Track	Title	Artist	Album	Length	Sample rate	Bit depth	Bitrate	File type	Source

That's about it!

Are there others? - Yes, Check out:

https://osalt.com
https://alternativeto.net/
https://www.techsupportalert.com/

for lots more recommendations for free software.

Thank you
for allowing me
to share my ideas on
“free software” with you.

- Please feel free to contact me with questions, comments, suggestions or even better -- more free software that you've found:

freejohn@protonmail.com

Bonus Material

The following slides have live links to many of the featured free software that was presented. This will allow you to go directly to their actual site and not take a chance on getting “lost”.

Tech Assistance - Talk

- Jitsi ** - voice/video/desktop sharing
- Zoom - voice/video/desktop sharing

Tech Assistance – Remote Access

- Teamviewer
- DWService ** **(web based)**
- **AnyDesk**

Password Managers

- Bitwarden **
- KeePass(Win)**/KeepassX(Linux)**/ KeepassXC (cross-platform, newer)**
- Roboform

Bookmark Managers

- EverSync (web based)**

Productivity – Text documents, Spreadsheet, Presentation

- LibreOffice**
- Calligra**
- FreeOffice, WPS Office
- GoogleDocs,

Protection *- Antivirus*

- ClamAV **
- Avast /AVG (both owned by Avast)

Protection – Spam/Spyware/Malware

- MalwareBytes
- SuperAntiSpyware

Protection – Clean Up/Removal/Update & Information Gathering

- BleachBit **
- Revo Uninstaller
- Speccy
- Belarc

Protection – Backup/Restore

- Bacula **
- SyncBack
- Macrium Reflect – image

Software Easy Downloading and Keeping Up to Date

- PatchMyPC
- NiNite

Productivity – Text documents, Spreadsheet, Presentation

- LibreOffice **
- Calligra **
- FreeOffice , OnlyOffice **

Productivity – Note Taking

- Joplin **
- Evernote
- SimpleNote **

Productivity – Web browser, E-Mail

- Firefox **
- Chromium **/Brave **

- Thunderbird **+Lightning**
- Mailspring **

Productivity – Screen Capture

- Greenshot **
- Ksnip **
- ShareX **

Productivity – PDF tools

- PDFCreator **
- Sumatra PDF **

Multimedia - Player

- VLC **
- Strawberry Player **
- Audacious **

Multimedia – Editing/Recording

- Audacity ** - audio editing
- Avidemux ** - video editing

Graphics – Photo Editor

- G.I.M.P. **
- Inkscape **
- Darktable **

Misc. Utilities

- 7Zip ** (file compressing)
- Gramps ** (Genealogy)
- WinDirStat ** (k4dirstat - Linux)
